Backend-focused developer with experience in Python, Django, React, PostgreSQL, Redis, and AI-powered systems. Passionate about building scalable applications and workflow automation platforms.

Target Roles

- Backend Developer
- Python Developer
- Full-Stack Developer

Cover Letter Template

Dear Hiring Manager,

I am writing to express my interest in the Backend Developer/Python Developer position at your organization. I am currently a Python Full-Stack Developer Intern at Bridgeon Skillversity and am completing my Bachelor's degree in Political Science from the University of Calicut in 2026. Alongside my internship experience, I have built projects including Synthetix OS, an AI-powered workflow orchestration platform, and a full-featured e-commerce application. My technical expertise includes Python, Django, Django REST Framework, React, PostgreSQL, Redis, Celery, and AI integrations. I enjoy solving complex engineering problems and building reliable, scalable systems. Thank you for your time and consideration. I would welcome the opportunity to discuss how my skills and experience can contribute to your team. Sincerely,

Muhammed Swalih
